

Indiana State Income

Tax Table

The State individual income tax rate for Indiana as of January 1, 2007 is still 3.4%. As a courtesy, Creative Microsystems, Inc. provides this handout to show how the tax rates are setup within our Payroll applications. However, **individual Payroll Administrators are responsible for reviewing IRS guidelines and for maintaining tax tables!**

Please set up your tax tables in TAX TABLE MAINTENANCE as illustrated on the next page. Use one of the following menu selections applicable to your system:

Application	Menu
PayX Client/Server	SPECIAL FUNCTIONS/FILE MAINTENANCE/TAX TABLE MAINTENANCE
Payx Character-Based	Menu 5-2
Payroll Character-Based	Menu 1-7

The dependent allowance is \$1500.00.

The next page contains the TAX TABLE MAINTENANCE screen setup for Indiana Tax Code "IN" as copied from the State of Indiana Web site:

ANNUAL PAYROLL PERIOD

Where taxable wage is the gross wage minus \$1500.00 for each dependent exemption claimed. (*PayX Client/Server is used for this example set up.*)

Line	From Amount	To Amount	Base Amount	Percent
1	0.00	9999999.99	0.00	3.4000

In Indiana, there is an additional personal exemption of \$1000.00 per exemption claimed. The software has this value built into the system for Indiana agencies. It will be included in the tax computation automatically when you set the **Compute Type** field to "I" for Indiana Tax. Then use the **Per** field on the **Employee** tab of EMPLOYEE MAINTENANCE to enter the number of personal exemptions as well as the **Dep** field for the number of dependent exemptions.
